

Field Name	Data Type	Data Length	Element Definition	Examples of Valid Values
inst_id	int		Primary key; auto-incremented	1, 2, 3, 600, 999, 30478
name	varchar	50	Name of the institution; INSTNM from College Scorecard dataset	University of Michigan, Washtenaw Community College, Cleary University
city	varchar	50	City in which the institution is located; CITY from College Scorecard dataset	Ann Arbor, New York, Philadelphia
state_id	int		Foreign key to State; state and region in which the institution is located	1, 2, 3
control_id	int		Foreign key to Control; institutional control of the institution (public, private nonprofit, private for-profit); CONTROL from College Scorecard dataset	1, 2, 3
level_id	int		Foreign key to Control; institutional level (4-year, 2-year, less than 2-year); ICLEVEL from College Scorecard dataset	1, 2, 3
mean_earn	int		Mean earnings 10 years after entry at this institution for students who are working and not enrolled; MN_EARN_WNE_P10 from College Scorecard dataset	1, 600, 30476
family_inc	float	10,2	Mean family income of students who attend this institution; FAMINC from College Scorecard dataset	1.10, 600.0, 30477.98
mean_cost	int		Mean net cost students pay to attend this institution; combination of NPT4_PUB and NPT4_PRIV from College Scorecard dataset	1, 2, 3, 600, 999, 30478
first_gen	float	10,2	Percent of students at the institution that are first generation students; FIRST_GEN from College Scorecard dataset	0.32, 0.46, 0.99

Field Name	Data Type	Data Length	Element Definition	Examples of Valid Values
state_id	int		Primary key; auto-incremented	1, 2, 3, 600, 999, 30478
long_state	varchar	20	Full name of the state	Alabama, California, Texas
abbr_state	char	2	Abbreviated name of the state; STABBR from College Scorecard dataset	AL, CA, TX
region	varchar	25	Region in which the state is located; REGION from College Scorecard dataset enumerated using the data dictionary	New England, Mid East, Plains

Field Name	Data Type	Data Length	Element Definition	Examples of Valid Values
control_id	int		Primary key; auto-incremented	1, 2, 3, 600, 999, 30478
control	varchar	20	Name of the control of the institution; CONTROL from College Scorecard dataset enumerated using the data dictionary	Public, Private nonprofit, Private for-profit

Field Name	Data Type	Data Length	Element Definition	Examples of Valid Values
level_id	int		Primary key; auto-incremented	1, 2, 3, 600, 999, 30478
level	varchar	20	Name of the level of the institution; ICLEVEL from College Scorecard dataset enumerated using the data dictionary	4-year, 2-year, Less-than-2-year
